What We Say

This is an easy-drinking crowd pleaser, from the heartland of Rosé country. A simple Provencal rose which has sweet, red fruit characters, the lighter side of medium bodied on the palate, and with a fresh, zingy acidity on the finish.

What They Say

The IGP Var "Argens" is a gray wine resonating with the limestone, gypsum and crystalline origins of the Argens watershed. This river which has its source in Seillons, crosses the center of the Var from East to West. This valley is part of the natural heritage of the Var department, because of its geological wealth, bio-diversity and history.
