**Directions:** Starting from the Super Morzine lift, cross the suspension bridge to the other side. It is not necessary to cross the bridge if starting out from Hotel Philibert and Hermine. Note: cycling is not permitted on the bridge.

At the end of the bridge take a left, following the road away from Morzine centre and cycle along the road, approx 1.7km into Montriond village.

About 100m past the village square take a right turn towards Ardent cable car.

Follow the road for about 300m to the roundabout and turn right going up and out of Montriond. At the next roundabout (shortly after the first) continue straight over. It should be signed 'Ardent' or 'Lac Montriond'

It is then a consistent, and easy climb to the lake, which is approx 2-3 Km's along the road.

Once you are at the lake is possible to cycle around the lake on a flat track which will take about 15-20 mins. Or you can lock up your bikes and walk around the lake. There is a nice restaurant on the lake and on the side of the lake you have arrived at is the bus stop (for pedestrians) and a tourist info centre with the kayak and paddleboard rental shop.
